PROFILE SUMMARY

Recent IT graduate specializing in data analysis with a strong foundation in Python, SQL, and Excel. Eager to apply my skills and contribute to a data-driven team, I'm passionate about uncovering insights that inform decision-making. Known for my adaptability and commitment to continuous learning, I am ready to take on new challenges and grow within the industry.

SKILLS

Programming: Python, R Programming, SQL
Visualization : Tableau
Database: MYSQL, MY SQL SERVER
Analytical Tools : Spreadsheet, Microsoft Excel

PROJECTS:

AFL Diversity Analysis   **August 2024**

Analysed AFL stats dataset to explore team performance trends and player statistics, emphasising diversity in the dataset. The findings provided insights into historical trends and helped identify teams success based on origin diversity.

Netflix Populars   **Sep 2024**

Analysed Netflix Movies and TV Shows data in Tableau and created Dashboard. Analysed popular genre in TV and Movies and created content creation strategies in popular genres.

                                                                                      Oct 2024

Bellabeat data analysis
Google Data Analytics Professional Certificate

Conducted a data analysis project using Bellabeat smart device data, uncovering insights on user engagement and health trends. The findings informed marketing strategies, leading to enhanced user satisfaction and targeted outreach.
